

**QUOTATION PROCESS**

**Inquiry/order process:**

1. Please complete the following quotation request form and fax or email to:

F 03 5568 3156  
E timber@mmhearn.com.au

2. A quotation based on current mill prices and a delivery program will be prepared for your consideration. A purchase order/contract will be faxed or emailed back to you for signing to confirm your interest in proceeding with the order.

3. To place the order in production, a 40% deposit of the order value will be required to be deposited into the M M Hearn Architectural Products bank account.

4. Prior to despatch from the mill, payment of the remaining 60% of the order value will be required.

5. Trading accounts can be established for regular trading clients.

**Logistics:**

There are a range of delivery options from one pack through to full semi loads. Full semi-loads are more cost effective. The maximum tonne direct from mill to site is 23-25 tonne.

A general guide for cubic metres to the tonne is:

**Green off-saw**

- Spotted gum = 1.35m<sup>3</sup> of timber to the tonne
- Forest red gum = 1.35m<sup>3</sup> of timber to the tonne
- Red ironbark = 1.4m<sup>3</sup> of timber to the tonne

**Kiln dried timber to the tonne**

- Spotted gum = 1.1m<sup>3</sup> of timber to the tonne
- Forest red gum = 1.1m<sup>3</sup> of timber to the tonne
- Red ironbark = 1.2m<sup>3</sup> of timber to the tonne

**Order lead times:** Customised orders are filled from timbers sourced from sustainably managed forests. Standard sized flooring and decking is generally ex-mill stock items that can be delivered to site within 14 days on receipt of confirmed order and payment.

For customised flooring, decking, cladding and structural hardwoods a lead time of several weeks should be allowed between placement of confirmed order and delivery.

Kiln drying of decking in thicker size orders is subject to full kiln charges and lead times of several months may apply subject to the order size.

**Product requirements:**

Please complete the following checklist

**Contact information of person placing order :**

Contact person: .....

Company name:.....

Role in project:  architect  building designer

builder  interior designer  client

owner builder  other.....

.....[please specify]

Telephone: Business.....

mobile..... fax.....

Email:.....

Postal Address:.....

.....

**Contact info of person receiving order on site:**

Contact person: .....

Company name:.....

Role in project:.....

Telephone: Business.....

mobile.....

ah..... Fax:.....

email:.....

**Project details:**

Project name: .....

.....

Project timeframe: when the product is required

.....

Project type:  residential  development

commercial  other .....

Project address or proposed location for product

delivery: .....

.....

**Delivery requirements:**

Delivery charge options: Would you like delivery charges to be quoted:-

- Ex Brisbane or  to a depot in your state capital & you arrange transport from there or  direct to the building site.

If delivery to site, is on-site undercover storage available?  yes  no
